

# BATTERY CHARGERS

## BATTERY CHARGER KIT

### ALWAYS A FULLY-CHARGED BATTERY

Modern vehicles with advanced electrical systems require a fully-charged battery, particularly for short journeys. So this battery charger is extremely useful.

The charger consumes minimal power, and, in addition to ensuring that your battery is fully charged, can also be used as a power supply and for charging fully discharged batteries. Type designation of BC1205 B=Battery, C=Charger, 12=12 volt, 05=amp

### BATTERY CHARGER KIT

The complete charging system for vehicle batteries.

In order to improve reliability and minimize vehicle downtime, Battery Supplies is offering a complete charging system for vehicle batteries. The system consists of a battery charger (12V) and an installation cable kit.

### CHARGER KIT FOR LARGER VEHICLES

Battery Supplies offers complete battery charging systems for larger vehicles that use much power. The system consists of a battery charger (24V) and an installation kit.
