MAINTENANCE

BATTERY MAINTENANCE

Proper maintenance of the battery allows better performance and longer life.

Regular use of cleaning products provide you an unquestionable economic advantage. For these reasons, we offer a full range of cleaning products.

BIO-DEGRADABLE

▶ **BAT/34502**

Battery Acid Cleaner & Neutralizer

Acid neutralizer and cleaner in spray. Cleans by acid affected surfaces and neutralizes the acid. The biodegradable "Solution Safe" maintenance products neutralize, clean (on the basis of citrus) and dissolve the corrosion of terminals, cables, plugs and containers. These products change of color when they come in contact with electrolyte (acid). In this way, the mechanic knows if there are acid radicals present. Easy in use: sprinkle and rinse. The waste water is harmless. 946 ml.

▶ **BAT/34506 - "Heavy Duty"**

Battery Acid Corrosion & Neutralizer

Acid neutralizer in spray: to neutralise bad corrosion by acid. This aggressive neutralizer is especially developed for tenacious corrosion, breaks down all corrosion: extremely efficient! 946 ml.

WATER PROTECTOR

▶ **BAT/21755**

aerosol 400 ml

▶ **BAT/21753**

bottle 1.000 ml

- Protects your chargers and electronic components against water and moisture!
- Water protector is an electronic acid-free preservative.
- Dispels moisture, rust and fat.
- Lubricates and protects.

BAT 15214: AQ-Cleaner
Battery Neutraliser & Protector with color indicator

Prevents battery corrosion. Prevents leakage current. Prolongs the battery life. Colors red when it gets in touch with acid. Colors green by neutralization. 400 ml.

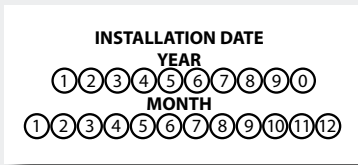

BAT/48108
Anti-corrosion gel

Prevents corrosion at the terminals! Easy to bring on: with little brush attached to the lid. Tin 227 g.

BAT/15152
 Tube anti-corrosion fat

BAT/36916
 Indication of expiring date / warranty.

BAT/15171: 5 L
 Acid proof rubber paint for battery cases etc.

BAT/15170: 0,5 L
 Acid proof rubber paint for battery cases etc.

ACCU MAT

Accu Mat is developed to use underneath the battery. Place the mat under the battery to catch and neutralize eventual leaks. Available in 2 sizes: sheets or rolls of 3 mm or 9 mm thickness

- BAT/25917** ACCU MAT 48 cm x 48 cm per 50 pcs
- BAT/25919** ACCU MAT 48 cm x 48 cm per 200 pcs

BAT/19622
 Terminal cleaner

BAT/15160
 Cleaning brush for battery terminals and connection.

BAT 15168
 Stencil with letters

BAT/15169
 Stencil with numbers
